About Us

Bharat Bio Gas Energy Ltd, was formed in 2014, is a India's first innovative producers of Bio CNG gas and Liquid Organic Manure & fertilizer. Through proprietary biotechnology, we utilize beneficial and agricultural application.

Our focus is to provide advanced Organic, biological and nutritional products for a broad range of agronomic markets including agricultural crops, horticulture crops, landscape management, home gardening & golf course. Our all products are Eco-Friendly and safe for use.

LIVE LIFE MORE ORGANICALLY

BBEL
BHARAT BIOGAS ENERGY LTD.

Managing Director

Dr. BHARAT J. PATEL

M.S. (Ortho.)

Sr. Joint Replacement Surgeon

He is senior most joint replacement surgeon and also a farmer, working extensively for farmers' welfare to create communication between government & farmers' community. He has developed the philosophy of increasing income of farmers.

VISION

- To Provide Complete Solution to Agri-business Industry and be Specialized in Agriculture field with Latest Technology for complete customer satisfaction with concept of "Nutrition Farming".

MISSION

- To promote "Nutrition Farming".
- Make farming profitable for small & marginal farmers.
- Provide organic input items for Agriculture and Aquaculture farming for residue free production.
- Residue free production of food - free from harmful impact of chemical and pesticides.
- Reduction in cost of cultivation to make farming affordable for all.

PHILOSOPHY

- We conceptualized and grounded by a cadre of experienced Agri professionals, with an aim to impart "Partnership in accelerated growth of agriculture quality production."
- The company has extensively worked on different propositions of Agri-business and provided its professional advisory services for

Awards & Recognition

GUJARAT GAURAV AWARD

Receiving award from Hon'ble chief minister of Gujarat **Shri Vijaybhai Rupani** & Governor of Gujarat **Hon'ble Shri O.P.kohli**

**MOST INSPIRING
OPHTHOPEDICIAN
OF INDIA AWARD
BY ECONOMIC TIMES**

Receiving award from
hon'ble healthminister of State
**Shri Ashvini kumar Choubey &
Niti Ayog Member Dr. V.K. Paul**

**Appointed As
Brand Ambassador Of
Organic State By Govt. Of
Arunachal Pradesh By
Shri Giriraj Singh,**
Minister Of State for Micro,
Small and Medium Enterprise

Meeting
With
Hon'ble
Central Agriculture Minister

Shri Radha Mohan Singh

Dr.Bharat Patel
with Hon'ble
PM SHRI NARENDRA MODI

Invited at National Conference
"Agriculture 2022- Double the
Income of Farmers" of Eminent
Scientists for their contribution
of thoughts.

SOIL NUTRITION

SUNDAR ORGANIC

Prepared from biogas slurry, due to dual type of composting process (i.e. Anaerobic and aerobic), it is 100% decomposed organic manure and enriched with beneficial microbes.

Benefits:

- Rich source of organic matter & organic carbon.
- Improve microbial activities in soil.
- Improve water holding capacity of soil.
- Improve fertility of soil.

Packing & Doses:

- 50 kg bag.
- 10-12 bag per acre can be applied during land preparation.

SUNDAR 108 GOLD

It is rich source of natural organic carbon, humic acid & amino acid. It is a liquid fym which can be used at any stage of crop. Filtered through 40 Q filter and enriched with beneficial microbes

Benefits:

- 100% available form of carbon & humic acid.
- Organic carbon -up to 40%, humic acid - up to 40%
- Improve soil microbial activities.
- Improve c: n ratio in plants.
- Can be applied at any stage of crop.

Packing & Doses:

- 1 liter, 5 liter & 20 liter.
- 2.5 liter per acre can be applied through drip, sprinklers or flood irrigation system.

Organic farming good for nature, good for you

GHAN JEEVAMRUT

Ghan jeevamrut is a complete and balanced food for all crops and land. Various botanical natural product vanvrudhi & other organic ingredients fermented ghan jeevamrut contains nitrogen, phosphorus potash, sulphur, zinc, manganese, magnesium, and high count of beneficial bacteria.

Benefits:

- Improves soil conditions.
- Reduces use of fertilizer and pesticides.
- Improve nutrient uptake and control ph.

Packing & Doses:

- 5 kg.
- 1 bag (5 kg) can be used in soil through drip or flood irrigation per acre.

LEONARDO

It is leonardite granules and content 75% organic potassium humates and 46% organic carbon, magnesium, and high count of beneficial bacteria.

Benefits:

- It is a source of Leonardite Organic Acid which is a powerful fungi promotant.
- Rich source of Organic Carbon.
- Natural chelating agent for fertilizers.
- Neutralize high sodium in soil.
- Protect root from Nematodes.
- Stabilizes nitrogen and improve nitrogen efficiency.

Packing & Doses:

- 1 Kg.
- 1-2 Kg can be applied as basal application / 200 gm week with every fertigation.

SUNDAR GOLD

Sundar gold is a high organic carbon, microbial, essential nutritional elements & high protein enriched organic

Benefits:

- Balanced soil nutrition for plants.
- Rich source of organic carbon for soil.
- Rich source of primary, secondary and trace elements
- Improve soil fertility by increasing n, p and k ratio
- Improve organic matter, minerals & microbes in soil.

Packing & Doses:

- 25 kg bag.
- 4-5 bag per acre can be applied during land preparation.

MATRIS PLUS

It is a unique combination of soil probiotic extract, bio-stimulants, organic carbon, amino acid, seaweed extract

Benefits:

- Early germination
- Vigorous seedling growth
- Profuse primary and secondary root development
- Increased soil microbial activity
- Higher nutrient uptake
- Higher yield and better quality of the produce

Packing & Doses:

- 5 kg & 10 kg bag.
- 1-2 bag per acre can be applied during land preparation/ during growth of crop.

SUNDAR NUTRA KIT

Sundar nutra kit is a unique kit of 7 nutrition having nitrogen fixing bacteria, phosphate solubilizing bacteria, potash mobilizing bacteria, zinc solubilizing bacteria, food for bacteria, mycorrhiza (ariza), and fungus culture to protect from fungal attack.

Benefits:

- Soil microbes -n, p, k & zn for nutrition uptake at all stage of crop.
- Reduction in chemical fertilizer use.
- Healthy & strong root system.
- Control of fungal diseases.
- Healthy & quality tuber/ fruit setting.

Packing & Doses:

- 1 kit.
- 1 kit can be applied after 20-25 days of sowing/ 10-15 days after transplanting.

SUNDAR CALMAX

it is the product required by plants for building cell wall. calmax provides plant nutrition- Calcium which is 100% available top plants.

Benefits:

- Rich source of calcium for plants.
- Very effective for controlling fruit cracking.
- Helps to maintain chemical balance in the soil, reduces soil salinity.
- pH is below 5.
- It also acts as pH balancer for plants.
- Very effective for controlling fruit cracking.

Packing & Doses:

- 5 Litre.
- 1 Litre per acre can be applied in drip. Can be repeated in 15-20 days as per requirement.

GROWTH PROMOTERS

LUSH

It is a combination of plant nutrition with sea weed extract and amino acid.

Benefits:

- Promote growth & development of plant.
- Increase in flowering and fruit setting.
- Improves plant immunity..

Packing & Doses:

- 1 liter.
- 5 ml/liter as foliar / 1 liter per acre through drip can be applied.

MACTO

It is a natural plant growth promoter which supplements the requirements of nitrogen, phosphorus & potash to plants. Macto is a natural bio organic liquid product prepared from ex tract of different herbals and bio-organism.

Benefits:

- Macto is a natural source of nitrogen, phosphorus, potash.
- Reduce the use of chemical fertilizers.
- It is very effective for all horticultural plants.

Packing & Doses:

- 1 liter.
- 5 ml/liter as foliar / 1 liter per acre through drip can be applied.

RAPIDO

It is a bio-organic product extracted from vegetable seeds which contents specific enzymes & hormones for enhancing flowering & fruit quality of plants.

Benefits:

- Help plant in photosynthesis and storage of carbohydrates.
- Improve flowering in plants
- Control flower drops.
- Improve fruit quality

Packing & Doses:

- 50 ml. 100 ml.
- 0.1 ml/liter as foliar can be applied during flowering & fruiting stage.

SPREADO

It is a patented technology that extracts natural tetra-siloxane from rice husks. It acts like wetter/sticker/spreader that supplies all of the benefits of silica. Silica improves photosynthesis, stem strength, resilience, nutrient translocation, plant immunity and production.

Benefits:

- It improves Photosynthesis.
- It improves stem strength, resilience, nutrient translocation.
- It improves plant immunity and production.
- Improves fruit quality, shining etc.

Packing & Doses:

- 50ml, 100ml & 250 ml.
- 0.2ml -0.5ml /Liter can be mixed with all types of foliar spray for better result.

THE NUTRITIONAL INTEGRITY OF THE VEGETABLE

SUNDAR -CMB

It is based on natural growth hormones from vermin-compost and herbal plant extracts, plus natural botanical plant extracts, fortified with selected fermented bio- nutrition., magnesium, and high count of beneficial bacteria.

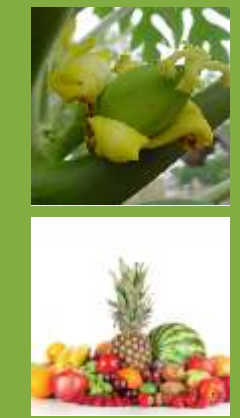

Benefits:

- It is rich source of natural calcium, magnesium & boron for plants.
- It provides essential nutrition to plants during flowering period.
- It provides essential nutrition for plant during fruit setting and cell wall formation of fruits.
- It strengthens plants during environmental stress condition.
- Improves fruit quality, size & color. Also reduces fruit cracking due to environmental stress condition.

Packing & doses:

- 1 liter.
- 4 ml/liter as foliar / 1 liter per acre through drip can be applied.

SUNDAR TRIPLE TEN

It is based on natural growth hormones from vermin-compost and herbal plant extracts, plus natural botanical plant extracts, fortified with selected fermented bio-nutrition.

Benefits:

- It is a comprehensive all- in- one formulation for all nutritional requirements of plants.
- It provides essential nutrition to plants required for growth and development.
- It provides primary, secondary and trace elements required by plants.
- It helps in fruiting and flowering along with vegetative growth of plants.
- Along with rapido it helps in fruits size & quality.

Packing & Doses:

- 1 liter.
- 4 ml/liter as foliar / 1 liter per acre through drip can be applied transplanting.

ACTIVATOR

It is a bio organic product act as a bio-stimulant for plant. It stimulates the plant's enzymes & harmons for uptake of nutrients from soil and enhances enzymatic activity in plants.

Benefits:

- Activate the plant for nutrition uptake.
- Stimulate plant for overall growth.
- Stimulate plant during flowering for uniform flowering.
- Stimulate plant for uniform distribution of nutrition.

Packing & doses:

- 200 gm.
- 1 gm /liter as foliar / 200 gm per acre through drip can be applied.

SUNDAR -KELP

Sundar -kelp offers a unique formulation of the three most popular growth promoting seaweed species. Laminaria, sargassum and ascophyllum nodosum are the three components of a new 100% soluble seaweed powder.

Benefits:

- It provides 42 types of essential minerals to plant.
- Contains very high levels of organic cytokinins
- Improves both growth and flowering in plants.
- It is a powerful anti-stress tool.
- Assist plants in the recovery from previous viruses

Packing & Doses:

- 200 gm.
- 1 gm /liter as foliar / 200 gm per acre through drip can be applied.

BIO-FERTILIZERS

BUD-MASTER

Bud - Master tablets are specially made for promoting flowering. It can be used to initiate flowering. Increase female flowering Promote pollen tube formation. Reduce flower drop and improve and improve the quality of flowers.

Contents:

Natural plant extracts. Plant hormones mineral salts and stabilizers

Dose:

- 10 tablets per acre.

SUNDAR -N

Microbes present in sundar-n after being activated and during multiplication release various enzymes and organics acids which convert atmospheric nitrogen (N_2) and even amide form of nitrogen available from chemical fertilizer in to plant available nitrogen form i.e. Nitrate (NO_3).

Benefits:

- It helps plant by providing one of the primary nutrient in ready available form.
- Boost up plant vigor which ultimately results in bumper crop yield.

Packing & Doses:

- 1 liter.
- 1 liter per acre through drip can be applied or flood irrigation system preparation.

SUNDAR -K

Sundar -k contains microbes meant to provide k supplement to plant and soil. Magnesium, and high count of beneficial bacteria.

Benefits:

It converts immobilized form of potash being present in soil year after year or added 15 to 20 % after each application of chemical potash fertilizers in to mobilize form.

Packing & Doses:

- 1 liter.
- 1 liter per acre through drip can be applied.

SUNDAR CONSORTIA

Sundar Consortia is a microbial formulation containing strains of bacteria NPKZn able to synthesize /assimilate atmospheric nitrogen, solubilizes phosphate potash and zinc into available form, there by supplementing balance nutrition to the crops.

Benefits:

It converts non available forms of micro nutrients into available form, hence increases the crop yield and improves the soil health.

Packing & Doses:

- 1 liter.
- 1 liter per acre through drip can be applied.

KEYTONIC

Keytonic is a natural source of high potash. It is very effective for all horticultural plants for meeting the requirements of high potash during fruiting period.

Benefits:

- Natural source of potash for plant.
- 100% uptake by plant.
- Reduces use of chemical fertilizers.

Packing & Doses:

- 1 liter.
- 5 ml/liter as foliar / 1 liter per acre through drip can be applied.

SUNDAR -P

Sundar-P contains microbes to provide phosphate supplement to plant and soil. Our production technology makes sundar-p more viable and trustful than others.

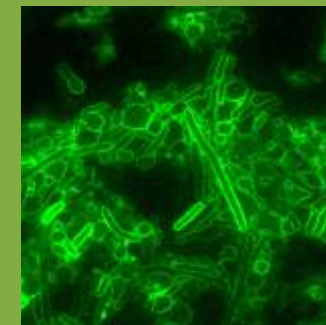

Benefits:

It converts unavailable form of phosphorus being present in soil year after year or added 40 to 50% after each application of chemical phosphorus fertilizer, into plant available phosphorus form

Packing & Doses:

- 1 liter.
- 1 liter per acre through drip can be applied.

SUNDAR ZN

Sundar-zn contains microbes meant to provide zinc supplement to plant and soil.

Benefits:

It oxidizes zinc and secretes organic acid which helps mobilize and solubilized fixed zinc and make it reclamation to plant.

Packing & Doses:

- 1 liter.
- 1 liter per acre through drip can be applied.

ARIZA

Ariza is a granular bio-fertilizer contains amf species that form a network of filaments that associate with plant roots and draw nutrients from the soil.

Benefits:

- Enhanced water and nutrient uptake
- Reduction of irrigation requirements
- Reduction need for fertilizer
- Increased drought resistance
- Increased pathogen resistance
- Increased plant health and stress tolerance

Packing & Doses:

- 100gm -powder form & 5 kg -granular form.
- 100 gm / 5 kg per acre can be applied in soil.

BIO-PESTICIDE/FUNGICIDES/ BACTERICIDES

THYANO -X

It is fully organic bio- product which controls sucking pest like –thrips, mites, red spider mites etc. It's very safe for environment and 100% residue free. It contents extract of botanical & herbal based product which gives very effective results against sucking pest.

Benefits:

- Controls thrips & mites attack on plant.
- 100% organic & safe product.

Packing & Doses:

- 200 ml.
- 1 ml/ liter solution can be used as foliar spray and should be repeated after 6-7 days for longer period result.

VASICA

It is a wonderful bactericide product as a plant protector like canker, black arm, angular leaf spot, leaf blight and fruit spot (xanthomonas) on various fruits, vegetables and flowers crops. It also controls other bacterial disease caused by pseudomonas and erwinia

Benefits:

- Protect plants from canker, black arm, angular leaf spot, leaf blight and fruit spot.
- 100% organic & safe product.

Packing & Doses:

- 100 gm.
- 0.5gm / liter solution can be used as foliar spray and should be repeated after 10-15 days for longer period result.

THE NEW TRADITION IS GOOD NUTRITION

SAPLOCK

It is a botanical & herbal extract product and eco-friendly product.

Benefits:

- It can be used as prophylactic treatment for preventing plant from attack of sucking pest.
- It keeps plant safe from sucking pest like –thrips, whitefly, mites, aphids, jassids etc.
- Reduce use of chemical pesticides.

Packing & Doses:

- 1 liter.
- 5 ml /liter with 10ml /liter cow urine can be used as foliar spray. Can be repeated @ 7-10 days for better result.

BBM POWER

Bbm-power is a natural bio organic liquid product prepared from extract of different herbals and bio organism. It is natural and safe product for farming.

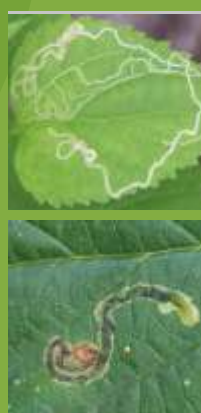

Benefits:

- It is very effective for plant to fight with all types of leaf eating/damaging insects & pests.
- It kills all type of larva/eggs of leaf eating/damaging insects & pest by damaging nervous system of insects/pests

Packing & Doses:

- 1 liter.
- 5 ml /liter with 10ml /liter cow urine can be used as foliar spray. Can be repeated @ 7-10 days for better result.

LIRIOM

It is fully organic bio- product which controls pest like leaf miners and mealy bugs. Leaf miner feeds on all vegetables & fruits. It's very safe for environment and 100% residue free. It contents extract of botanical & herbal based product which gives very effective results against pest attack.

Benefits:

- Controls leaf miners and mealy bugs attack on plant.
- 100% organic & safe product.

Packing & Doses:

- 200 ml.
- 1ml/ liter solution can be used as foliar spray and should be repeated after 6-7 days for longer period result.

ASCOM

It is a 100% organic bio- product which controls powdery mildew, botrytis, antenaria, cercospora, colletotrichum, etc. This product being fully organic, is very safe for environment user and consumer.

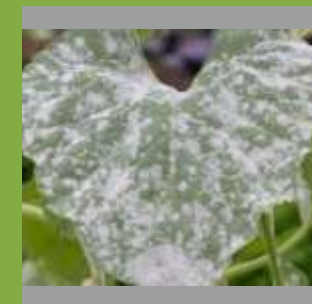

Benefits:

- It controls powdery mildew, botrytis, antenaria, cercospora, colletotrichum etc.
- 100% organic & safe product.

Packing & Doses:

- 200 gm.
- 1.0 gm / liter solution can be used as foliar spray or 1.5. Gm /liter for soil drenching and should be repeated after 7-10 days for longer period result.

FUNGWIPE

It is a botanical & herbal extract product and eco-friendly product.

Benefits:

- It is very effective for plant to fight with all types fungus attack and disease like downy mildew, powdery mildew, Phytophthora, Anthracnose, Blight, damping of, fusarium wilt etc.

Packing & Doses:

- 1 liter.
- 5 ml /liter with 10ml /liter cow urine can be used as foliar spray. Can be repeated @ 7-10 days for better result.

REXROOT PLUS

Rexroot plus is a natural bio organic liquid product prepared from extract of different herbals and bio organism. It is natural and safe product for farming.

Benefits:

- It is very effective for plant to fight with all types soil insect pest like nematodes, termites, grub etc.
- Reduce use of chemical pesticides.

Packing & Doses:

- 1 liter.
- 1-2 liter/ acre can be applied in soil through drip or flood irrigation. Can be repeated @ 7-10 days for better result.

EAT WELL FEEL GOOD!

VITO -G

For developing immunity to fight virus attack. Vito-g is a natural bio organic liquid product prepared from extract of different herbals and bio organism.

Benefits:

- It is very effective for plant to develop immunity against virus & provide growth to plants

Packing & Doses:

- 500 ml.
- 2 ml /liter e can be used as foliar spray. Can be repeated @ 7-10 days for better result.

SUNDAR BIO PROTECT

It is a nutrition and organo -mineral which help to control wide range of fungal plant Diseases. Systematic control of fungal plant disease.

Benefits:

- Stimulates plant immune system and improves plant resistance against a wide range of fungal plant disease.
- Assist plant to recover from potassium and phosphorus deficiency.
- Protect and cure root from fungal infections and improve nutrient uptake and grow the

Packing & Doses:

- 200 gm.
- 1 gm /liter can be used as foliar spray / 200 gm per acre through drip. Can be repeated @ 7-10 days for better result.

BACTSWIPE

BACTSWIPE is a natural Bio Organic product prepared from extract of different herbals and Bio organism. Its natural and safe product for farming.

Benefits:

- It is very effective for plant to fight with all types of Fungal & bacterial Attack / disease.

Packing & Doses:

- 200 gm.
- 1 gm /Liter can be used as foliar spray / 200 gm per acre through drip. Can be repeated @ 7-10 days for better result.

MULTI/EDTA-MICRO-NUTRIENTS

NUTRIMINE DRIP

Nutrimine - drip is a liquid formulation contains essential trace element (micronutrients) that ensure balance nutrition for growth and development of various crop.

Benefits:

- It is a Chelated Multi-Micro nutrient.
- Ensure luxurious growth of plant and help to overcome micronutrient deficiency related problems.

Packing & Doses:

- 1 Liter & 5 Liter.
- 2-2.5 Liter / Acre can be used through drip.

VITO -V

Vito v is a natural bio organic liquid product prepared from extract of different herbals and bio organism. Its natural and safe product for farming gives very effective results against pest attack.

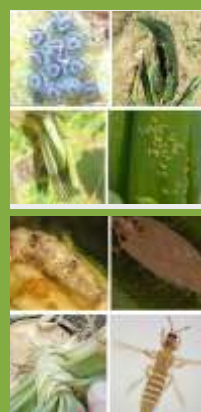

Benefits:

- It is very effective for making plant virus free with advance spray.

Packing & Doses:

- 1 liter.
- 4 ml /liter e can be used as foliar spray. Can be repeated

SUNDAR MYCOFORCE

It is nutrition and organic - mineral which help to develop immunity to protect itself from attack of pest and disease.

Benefits:

- Help plant to develop immunity against harmful insect & pest.
- Help beneficial microbes to grow
- Help plant to maintain its texture and turgidity

Packing & Doses:

- 200 gm.
- 1 gm /liter can be used as foliar spray / 200 gm per acre through drip. Can be repeated @ 7-10 days for better result.

SUNDAR - PSF

It is a nutrition and organic - mineral which help to control wide range of fungal plant diseases. Systematic control of

Benefits:

- Help plant to develop immunity to fight with types of fungal attack and keep away from root system.
- Keep root and fruit healthy and free from pathogens

Packing & Doses:

- 200 gm.
- 1 gm /liter can be used as foliar spray / 200 gm per acre through drip. Can be repeated @ 7-10 days for better result.

NUTRIMINE SPRAY

Nutrimine spray is a liquid formulation contains essential trace element (micronutrient) that ensure balance nutrition for growth and development of various crop. It has stimulants which open stomata for absorption in leaf.

Benefits:

- It is a chelated multi-micro nutrient.
- Ensure luxurious growth of plant and help to overcome micronutrient deficiency related problems.

Packing & Doses:

- 1 liter & 5 liter.
- 5 ml / liter can be used as foliar spray.

PROTECT YOURSELF AND USE ORGANIC PRODUCTS

SUNDAR CALCIUM

A soluble micro granular ca-edta complex containing 10.0% minimum calcium. Calcium is completely chelated with edta & is a 100% soluble in water

Benefits:

- Fulfill the calcium requirements of plants.
- 100% available to plants.

Packing & Doses:

- 500 gm.
- 1.0 g of sundar calcium per liter of water for foliar application. Use 500-1000 g per spray per hectare on standing crop.

SUNDAR MANGANESE

A soluble micro granular mn - edta complex containing 12.0% minimum calcium. Calcium is completely chelated with edta & is 100% soluble in water.

Benefits:

- It corrects manganese deficiency in soil & crops
- 100% available to plants.

Packing & Doses:

- 500 gm.
- 1.0 g of sundar - manganese per liter of water for foliar application.

SUNDAR ZINC

A soluble micro granular zn-edta complex containing minimum 12.0% zinc. Zinc is completely chelated with edta & is a 100% soluble in water

Benefits:

- It corrects zinc deficiency in soil & crops
- 100% available to plants.

Packing & Doses:

- 500 gm.
- 1.0 g of sundar - zinc per liter of water for foliar application.

SUNDAR AMINO CAB

A soluble micro granular -amino chelated calcium & boron complex which contains calcium min - & boron - and is 100% soluble in water.

Benefits:

- Amino cab -makes both calcium and boron available to plant.
- Amino cab- improves mobility of calcium & boron to plant.
- Amino cab - corrects the deficiency of calcium & boron of crops at every stage, improves plant growth, productivity by enhancing flowering and fruit quality.

Packing & Doses:

- 500 gm.
- 1.0 g of sundar - amino cab per liter of water for foliar application or 200 gm per acre in soil.
- 1 gm /liter can be used as foliar spray / 200 gm per acre through drip.Can be repeated @ 7-10 days for better result.

SUNDAR BORON

Sundar boron is an ideal micronutrient fertilizer, containing soluble boron (b)20% (min). To correct boron deficiency in soil & crops

Benefits:

- It corrects boron deficiency in soil & crops
- 100% available to plants.

Packing & Doses:

- 250 gm.
- 1.0 g of sundar boron per liter of water for foliar application. 200 -300 gm /acre can be applied in soil.

SUNDAR FERROUS

A soluble micro granular fe-edta complex containing minimum 12.0% iron. Iron is completely chelated with edta & is a 100% soluble in water.

Benefits:

- It corrects ferrous deficiency in soil & crops
- 100% available to plants.

Packing & Doses:

- 500 gm.
- 1.0 g of sundar - ferrous per liter of water for foliar application.

SERVICES FOR FARMERS

ORA-App Based Support For Horticulturer Plants.

Nutrition Farming - Potato, Banana, Chilli, Tomato, Groundnut, Cotton, Sugarcane, Papaya, Pomegranate And Other Crops

Residue Free Production Agronomy Services
